MID-AMERICA CLUB IT CONNECT  
6:00 PM, APRIL 19, 2018  
**THE NEXT PERFECT  
STORM**  
THE CONVERGENCE OF BLOCKCHAIN,  
BETTER DATA ANALYTICS, IOT AND AI

**Welcome to the Transformative Age**

Converging, rapidly-evolving technologies are profoundly changing how we interact and transact.

The Internet of Things (IoT) has shown the potential for low cost sensors on everything around, on, and even *in* us. Blockchains and smart contracts will provide the trust and transparency to build the foundation of Web 3.0. Fusing these advances with artificial intelligence is changing how we interact with machines, our environment and each other.

How can we benefit from this convergence? What are the risks? Are you ready to do business in the Transformative Age?

**Get Transformed.** Join Mid-America Club IT Connect on **April 19, 2018 at 6:00 pm** for a presentation from a thought-leader in tech!

**Speaker:** *Laszlo S. Gonc, CISSP, Co-Founder & Managing Partner, Next Era Transformation Group.*

*Laszlo S. Gonc is a nationally recognized keynote speaker on cyber security risk mitigation, digital transformation and other technology forces disrupting businesses today. He is invited at organizations, professional associations, industry conferences and universities providing thought leadership on the state of cyber security, IT risk mitigation, strategy execution and helping companies "Go Digital".*

*A member of Infragard, ISSA and ISACA, he serves as Chair of the Project Management Institute (PMI) Executive Council, Executive Vice President for the Chicago chapter of the Association of Information Technology Professionals (AITP) and Board Director for Society for Information Management (SIM) Chicago. In 2016, he helped launch the SIM International Cybersecurity SIG for senior technology leaders and continues to serve as Director of Strategic Programming and Content and webinar co-host, announcing their first annual national virtual Cybersecurity Conference in 2017. Laszlo is also co-founder of the Chicago Information Sharing and Analysis Organization (ISAO).*
